Distance Learning

This “**English at Work**” course is a distance learning training package. But what exactly is distance learning?

Training without Classrooms

Distance learning is **the** training method for the 21st century. Training on a major subject usually calls for a lengthy, and often inconvenient, period of work release. Courses are expensive and accommodation costs are high. This means that traditional classroom courses tend to be too short to cover the subjects well. Additionally, the work backlog that greets your return to work often means that you don't get the chance to introduce new ideas while they are still fresh in your mind. Many intended innovations and new procedures never see the light of day.

Freedom to Learn

Distance learning overcomes all of these barriers. It is now one of the main teaching techniques used by industry, commerce and higher education. Participants do not need to be released from work, the training is cheaper than classroom fees, and there are no additional accommodation costs. The course contains all the training material required and gives you the freedom to learn at your own pace. You can implement new ideas as the course progresses. Instead of being one in a class of many, the only participants in distance learning are you and your personal tutor.

ESTON Training Tutors

The best way to assess your performance and identify weaknesses is to have your work critically assessed against objectives and acknowledged standards by expert tutors, with many years English language experience at the highest levels.

Personal Attention

Thoroughness of the personal tutorial is recognised by individuals and companies alike as a special and commendable feature of ESTON Training's courses. Although you will be allocated a personal tutor, he or she may well call upon another opinion where a particular expertise or aptitude is required.

ESTON Training's tutors are all experienced professionals, with extensive subject knowledge and experience gained at the highest levels within industry and commerce. All of their know-how is available to you as you progress through the training course.

Help and Advice

Although your exercises and writing assignments are designed for submission and return by e-mail, you are always welcome to telephone for additional help and advice or if you need a particular point clarified. Please note our contact details at the end of this course brochure.

Funding your Course

You can pay for the course yourself or funding may also be available. Policies are variable, changing from region to region and from time to time. You may be eligible for government or commercial sponsorship. Enquire at your local Jobcentre Plus. Also, your local Chamber of Commerce may know of training grants, and both the Adult Education Centre and your local Training and Enterprise organisations may be of assistance. We are pleased to explain our training schemes to sponsors if they want to discuss your application for funding.

- **Company Sponsorship.** Often employers see training as a valuable initiative that benefits their company. It is worth approaching your employers to see whether they will pay part or all of the cost of your course. They may even allow you a few hours off each week in which to study, either at home or at work. It does no harm to ask!
- **Armed Services.** There are training entitlements to help with funding courses. Your Education Officer will be able to give you advice and make the necessary arrangements on your behalf, if you are eligible for a partial training refund.
